

NUR NABILA

082258093523 | nur30nabila@gmail.com | www.linkedin.com/in/nurnabila30 | https://nurnabila-portfolio.vercel.app/

Mathematics graduate from IPB University with experience in human resource development, leadership, project coordination, and data processing. Experienced in leading 11 members in member development programs and 65+ committee members in an orientation program attended by approximately 80 new Mathematics students. Strong analytical skills developed through a mathematics background and experience conducting quality control on 1,500+ data records, supported by proficiency in Microsoft Excel, Google Sheets, Python, and basic machine learning.

Work Experiences

PT Optima Solusi Indonesia - Remote, Indonesia

Jul 2026 - Aug 2026

Data Quality Control

- Conducted quality control and validation of 1,500+ data records to ensure accuracy, consistency, and alignment with source information.
- Identified and followed up on data discrepancies through verification against source information.
- Utilized Microsoft Excel and Google Sheets for data inspection, validation, organization, and management.
- Uploaded and organized validated data in Google Drive while collaborating remotely within a 5-member team to support assignment completion.

Education Level

Institut Pertanian Bogor - Bogor, Indonesia

Aug 2022 - Sep 2026

Bachelor of Mathematics

- Bachelor's Thesis: COPD Severity Classification Using Principal Component Analysis and Multinomial Logistic Regression. Applied Principal Component Analysis (PCA) and Multinomial Logistic Regression to analyze and classify disease severity based on clinical factors.

Leadership & Organisational Experience

Gumatika (Mathematics Student Association) - Bogor, Indonesia

Jan 2025 - Dec 2025

Head of Human Resource Development Department

- Led and coordinated 11 members in planning and implementing human resource development programs throughout the one-year term.
- Managed task delegation, monitored program progress, and evaluated program implementation to ensure departmental targets were achieved.
- Coordinated cross-department collaboration in organizational programs to support member engagement and organizational initiatives.
- Fostered a supportive team environment to encourage member participation, communication, and development.

Gumatika (Mathematics Student Association) - Bogor, Indonesia

Jan 2024 - Dec 2024

Secretary of Human Resource Development Department

- Supported the implementation of 5 departmental programs throughout the one-year term.
- Managed 100+ administrative documents and prepared meeting agendas and minutes for more than 30 departmental meetings and activities.
- Coordinated communication and schedules with 10+ members to ensure timely dissemination of information and activity requirements.
- Maintained systematic departmental documentation to support reporting, evaluation, and program continuity.

Neomath (Mathematics Department Orientation Program) - Bogor, Indonesia

Jun 2025 - Sep 2025

Project Lead

- Led 65+ committee members in planning and executing an orientation program attended by approximately 80 new Mathematics students.
- Coordinated multiple divisions and delegated responsibilities to ensure effective implementation of all program activities.
- Monitored preparation progress, schedules, and inter-division requirements throughout the planning and execution process.
- Facilitated cross-division coordination and problem-solving to ensure smooth program implementation.

E-Math – Mathematics Department Orientation Program - Bogor, Indonesia

Jun 2024 - Sep 2024

General Secretary

- Coordinated administrative and communication requirements across 7 divisions involving 60+ committee members to support the successful implementation of 5 program activities.
- Prepared meeting minutes, correspondence, and supporting documents to ensure systematic documentation of committee activities.

SPIRIT – Faculty Sports and Arts Competition - Bogor, Indonesia

Jul 2024 - Oct 2024

Operational Secretary

- Supported administrative and operational management for an event involving 50+ committee members and 10+ sports and arts categories.
- Coordinated administrative and communication requirements across 10 divisions to support event preparation and execution.
- Managed operational records and documentation systematically to facilitate monitoring of activity requirements and progress.

Skills, Achievements & Other Experience

- **Achievements:** Scientific Publication (2026): Third author of the research article “Wi-Fi Signal Propagation Simulation Using the Finite Element Method,” applying the Finite Element Method to simulate Wi-Fi signal propagation.
- **Achievements :** BNSP Certification (2026): Declared competent in the BNSP Associate Data Scientist Competency Certification Assessment.
- **Projects:** Nuclear Waste Transportation Route Optimization (2025): Formulated a route optimization problem using Mixed Integer Linear Programming (MILP) with time constraints and population exposure minimization.
- **Projects :** Population Dynamics Model (2025): Developed a dynamic model of two prey species and one predator, incorporating competitive interactions between prey species using a dynamical systems approach.
- **Projects:** Cryptography Analysis (2025): Analyzed and compared the security of Rabin Signature and Rabin–Williams Signature based on underlying mathematical and cryptographic principles.
- **Soft Skills:** Leadership, Communication, Team Coordination, Project Management, Problem Solving, and Adaptability.
- **Hard Skills:** Microsoft Excel, Python, Google Sheets, and Basic Machine Learning.
